

# Past Life Regression Workshop Saturday March 25 2017 - 10 am to 3:30 pm - at Unity of Naples

Join in a fun filled day with hosts, Rev. Karen Coratelli-Smith and Rev. David C. Karg, certified Past Life Regression Counselors.

Almost everyone can recall past life memories! In a controlled, and safe environment, Karen and David will lead you through various guided imagery journeys to explore your very own past life memories.

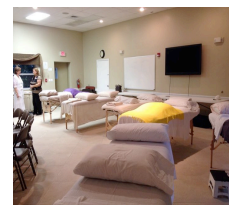

For some people, past life recall is slow and careful. For others, information flows like a mountain stream. Some “see” the memories, others “feel” the information deep inside, and others “hear” an inner voice ...the prompting of memory.

The format of regression work is to allow the story to present itself from deep within the unconscious where the soul records of each individual are vast. Those stories lead to an understanding of who we are, what our skills have been, and to what our purpose(s) might be in our present life. These stories are rich and believable!

Regression enables the processing of soul lessons, adding to the tapestry of life and the wisdom of the individual. Examining the results of multiple regression sessions with respect to a present life, is like adding photos to a family album. The story becomes richer in detail and clearer in purpose.
